# Overwatch Prevention Suite

## End-to-End Zero Trust Security

POWERED BY ZTEDGE

### The Rising Risk of Work Anywhere

Cloud computing, communications and applications empower your distributed enterprise with the tools to work anywhere, anytime. Your organization experiences unprecedented agility and productivity but also greater security risk. After all, how do you defend a vanishing perimeter?

### Introducing the Overwatch Prevention Suite

Overwatch Prevention Suite (OPS) tackles the emerging security challenge for your cloud-enabled business by moving enforcement to the edge where your team, devices, apps and workloads interact.

It goes even further by delivering end-to-end managed cybersecurity – from threat prevention to detection and response – to enable simple and secure network access anywhere, anytime.

**OPS creates a future-forward Zero Trust Cloud Area Network™ that provides integrated cloud security services to your organization, including:**

- SaaS application access control
- Secure remote private application access
- User and device authentication
- Ransomware and phishing blocking
- Network protection and monitoring

**Plus, your environment is managed around the clock from the Overwatch Security Operations Center, giving you added protection, including:**

- 24/7 monitoring by expert analysts
- Real-time threat detection and response
- Continuous policy management

**Ready to Implement Overwatch Prevention Suite?**

# Overwatch Prevention Suite

## Fastest Path to Zero Trust Secure Access

### All-in-One Security Solution

OPS combines the ZTEdge Secure Access Service Edge (SASE) solution with Overwatch 24/7 platform to cut complexity, reduce cyber risk and improve network performance – all in one solution and at half the price competitors charge.

### Expert Protection Delivered as a Service

You don't have to be a security expert to deploy OPS. We're making it available to businesses of all sizes as a managed service.

#### Affordable Subscription

Get zero-trust access at the edge as a cost-effective, expertly managed service.

#### Easy Deployment

Enable zero-trust access by downloading agents on all internet-enabled devices.

#### Fully Managed

Rest assured that our experts are detecting and responding to threats 24/7.

### Cybersecurity, Simplified

Overwatch Prevention Suite is part of High Wire Networks' Overwatch suite of managed security services, which offer organizations end-to-end protection for networks, data, endpoints and users. With one affordable subscription and a security appliance at every location, you can take advantage of these key features:

- 24/7 Security Operations Center
- Open Extended Detection and Response (XDR)
- Managed Network Detection and Response
- Managed Endpoint Detection and Response
- Vulnerability Management

- Managed Firewall
- Real-time Patch Management
- Security Awareness Training
- Ransomware Kill Switch

### Overwatch also delivers the critical benefits your organization needs:
