

You + Overwatch:

A Winning Cybersecurity Team!

Get on the Cybersecurity Fast Track with Overwatch

As a Managed Service Provider, you're in a race – not only against your competitors but against time and money – to build up a cybersecurity practice to protect your clients' IT networks and systems from growing cyberthreats.

Your proven stack and customer relationships + our security expertise, investment and instant scale = a cybersecurity winning team!

Turbocharge

Turbocharge Your Cybersecurity Growth Engine

- Our technical crew led by CTO David Barton makes sure the Overwatch platform is running on all cylinders.
- We've sourced and integrated best-of-breed solutions into a high-performance platform and 24/7 SOC.
- We ensure proper maintenance and upgrades to the best solutions on the market.
- You can offer affordable cybersecurity solutions – not only without taking on debt but earning profit from day one.

Hop In

Hop in the Driver's Seat!

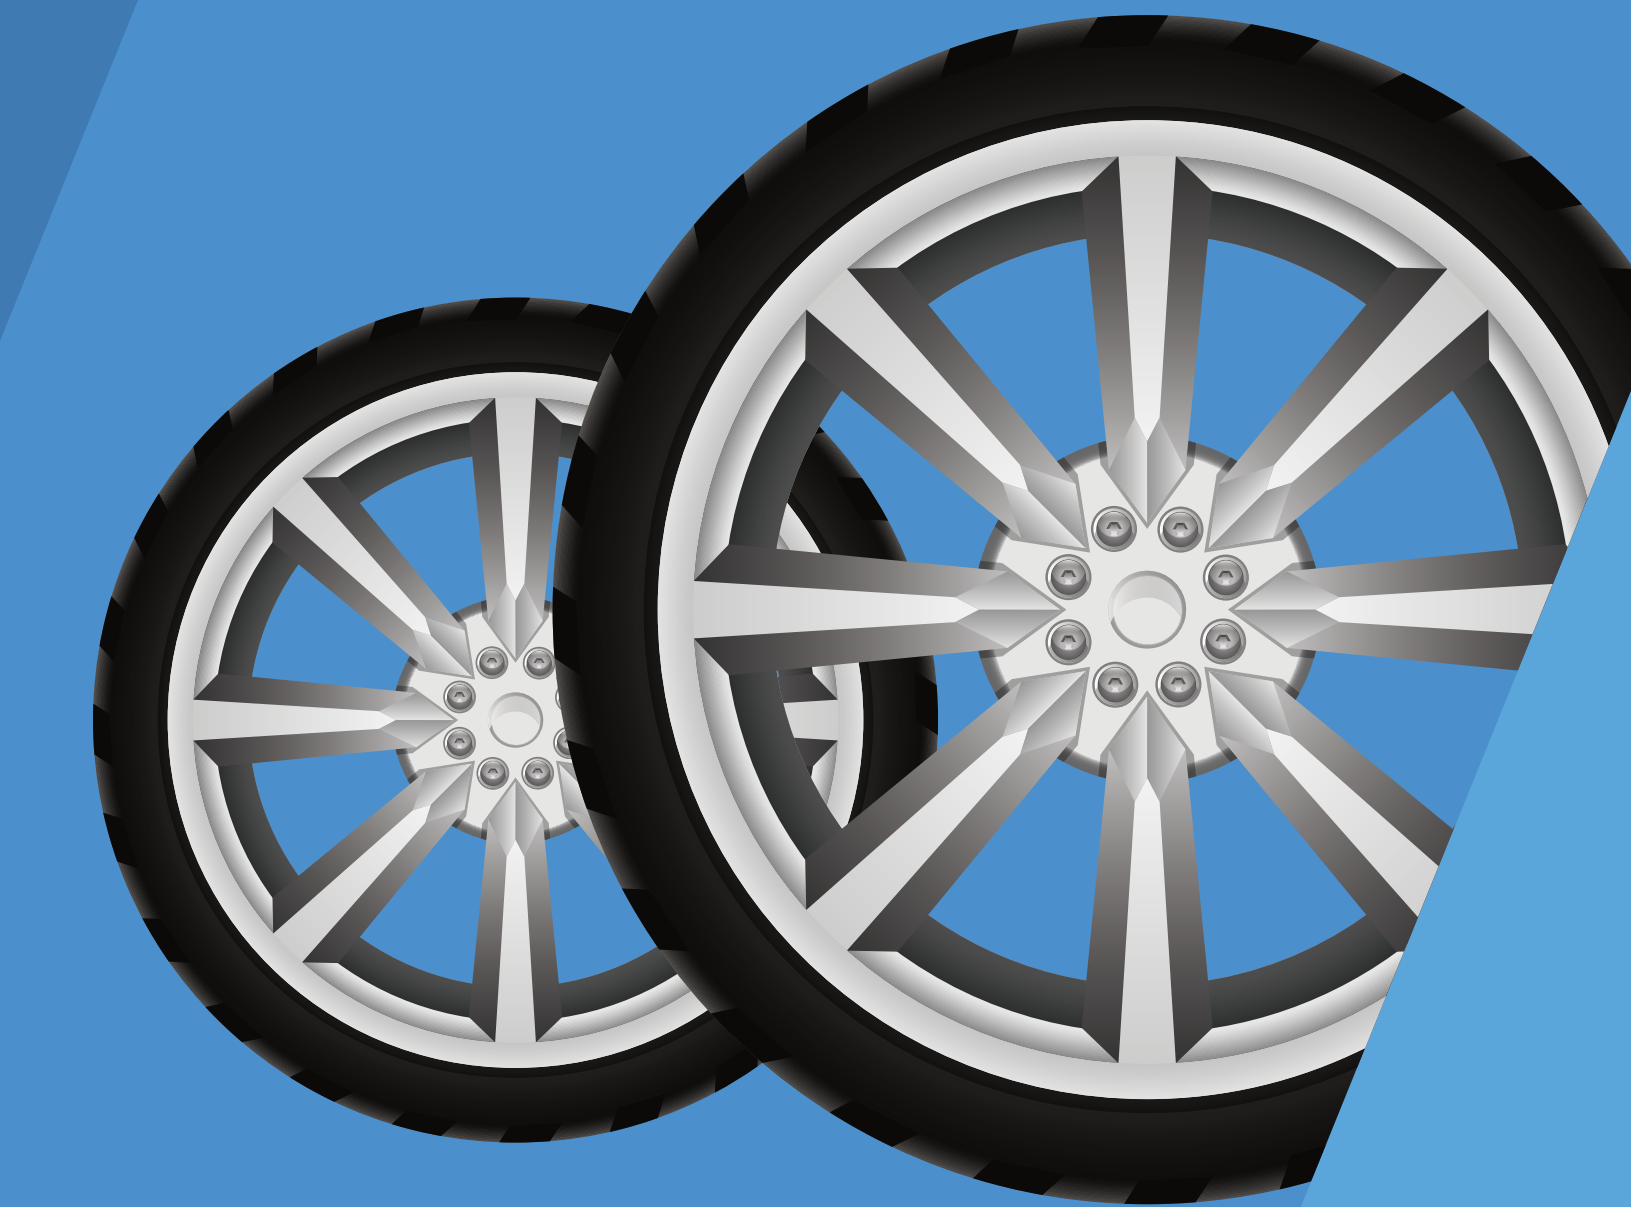

- You're in control of how fast our partnership goes and in what direction.
- Our platform becomes part of your stack.
- You can take on incident response – solely or with our assistance – or we can take care of it for you. It's your choice.

Accelerate

Accelerate Your Cybersecurity Success!

- We train you to evangelize risk mitigation, regulatory compliance and good cyber hygiene to win over customers.
- We also provide aircover with expert content and brandable collateral
- Plus, we have MDF to lend extra fuel to your cybersecurity message.
- If needed, our cybersecurity sales engineers will help you get the deal across the finish line.

Tune Up

Tune Up Cybersecurity Performance

- Get set for high performance under any track conditions with our 24/7 SOC led by CISO Phil Burnett.
- Our XDR finds the real threats fast using big data and AI.
- Our SOAR platform automatically resolves known threats.
- Our expert security analysts neutralize suspicious incidents.
- We proactively develop, implement and tune threat – detection analysis.

Win Fans

Win Loyal Fans!

- Educate your customers on cyberthreats.
- Protect them from cyber risks.
- Move from Trusted Advisor to Trusted Authority on Cybersecurity.

Get on the fast track by partnering with Overwatch Managed Security.
